

ACTS OF WISDOM

Teaching Charts

Teaching Charts play an important part and enable our teachers to teach basic information to our students in elementary school. In Ethiopia these teaching charts are usually painted on the walls. After a short time these paintings peel off the wall due to moisture. You can help us create these charts for our classrooms. They are made out of canvas drop cloths that you can buy at any Home Depot store. We sew the edges and scotch guard them so that they will last longer. These are then hung up on our rooms! Some examples are below, but here are some examples of charts you can make:

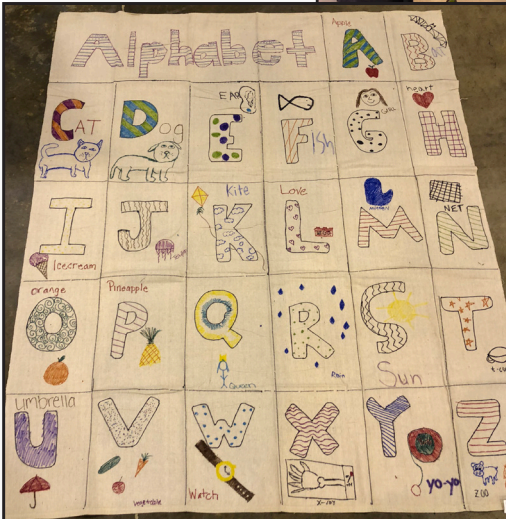

- Alphabet
- Numbers
- Animals
- Simple items: ball, cat, dog, tree etc.

Please see the picture examples below.

Once you make the charts send them to:

Acts of Wisdom
19802 Appleton Hills Trail
Cypress, TX 77433

Thank you for helping our students!
